CRICCLUBS – Managing Players and Matches

Summary

1. For adding players, you need to be a Team Admin – This will be assigned by the League Admin – All captains and vice captains have been made as Team Admin
2. For scoring, you need to be a Team Scorer – This will be assigned by the League Admin – All captains and vice captains have been made as Team Scorer
3. If you need additional players to be assigned as Team Admins or Team Scorers, reach out to League Admin
4. Team Admins have the ability to update the password, email and username of the players of their team. This is needed only if the players need to login and be a scorer or need to merge their profile from some other league in Cricclubs
5. There is no need for a player to login if they do not have profiles to be merged or do not intend to be scorers
