Q & A

- Does DLS Apply for Interruptions due to Bad light also?
 - Yes, confirmed with DCB Umpire Co-ordinator. It is applied to all the delays due to weather, ground, light etc. Umpire should note the time accurately
- Are there any Minimum overs defined for the games (T20/40/50 Overs)
 - For the first innings or the game does not start at all. This is defined in DCB SPO §17 Abs 3 d
 - In one-day game if 3 hours are lost or 80 minutes in T20 before the planned game start time then the match will be considered as No play possible
 - If there is a delay in 2nd Innings and minimum number of overs are not possible then the game will be defined as no result. This is defined in DCB SPO §17 Abs 5 c
 - For 50 Overs when less than 20 overs
 - For T20 Overs when less than 5 overs
 - 40 Overs is not defined in DCB SPO. Considering the number of Overs for 50 Overs, it would be less than 16 Overs for 40 Overs game in Bayern

Q & A

- What is the Official Duration of Games
 - As per DCB SPO §14 Spieldauer, one inning should last
 - 50 Overs 3h 20 Minutes
 - 40 Overs 2h 40 Minutes
 - T20 1h 20 Minutes
 - Calculation is done as 4 Minutes /Over
- Slow Over Rates
 - This is defined in DCB SPO §17 Abs 7
 - When the Umpire is of the view that slow over rate is due to one particular team (Batting or Bowling), he should inform League Management (Ligaleiter and Umpire Co-Ordinator)
 - There will be first official warning issued to the concerned club
 - When the same club does again in the season, one point will be deducted from their points
