- Prabhu – Devil Chargers
- Uday – Alpha Stallions
- Ghandru – Cric Addict's
- Antony – Cricket Warriors
- Suresh – Royal Cricket Club
- Arvind – Dragon Boyz

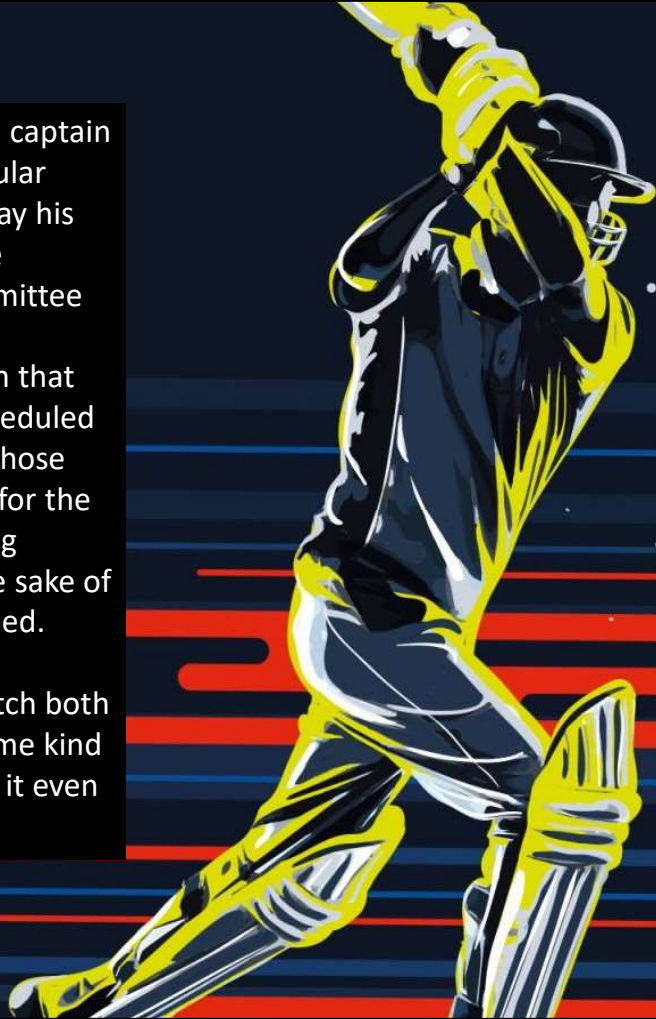

## Updated Rules & Regulations FKL 8

**Rule 1:** Captains are not allowed to do umpiring in their respective matches and standing umpires decision is final. No arguments allowed. If in case fielding team captain wants the umpire to be changed, then the batting team captain must change it irrespective of any situation.

**Rule 2:** We're introducing an option of standing captain which is completely a captains wish. If a captain is unavailable for a particular match on the scheduled date, he can just put auction with the opponent captain and he can nominate a person from his team as a captain to lead that day's match. This rule is introduced for the sake of league not to get extended.

**Rule 3:** During league, if a captain is unavailable for a particular period but he wants to play his matches in the end of the season, in such case committee will support the captain. However, in the end when that captain's matches are scheduled and he is unavailable on those days, then it's mandatory for the captain to choose standing captain option just for the sake of league not getting extended.

**Rule 4:** In a particular match both teams will have to use same kind of ball (old/new) to make it even for both teams.

**Rule 5:** If suppose a captain doesn't want to continue leading his side because of his upcoming unavailability, he can opt for standing captain option if he feels he can come back and lead his team for remaining matches. But if he wants to step down from captaincy for rest of the season fully then his team will be handed over to a new captain to continue and if that new captain qualifies for the knockout stages, then he will be allowed to play knock out matches unlike before.

**Rule 6:** During knock out stages, only ONE match can be scheduled by default. But if captains agree to play second match, then second match can be played.
