

How to Start Live Scoring in CricClubs Mobile App

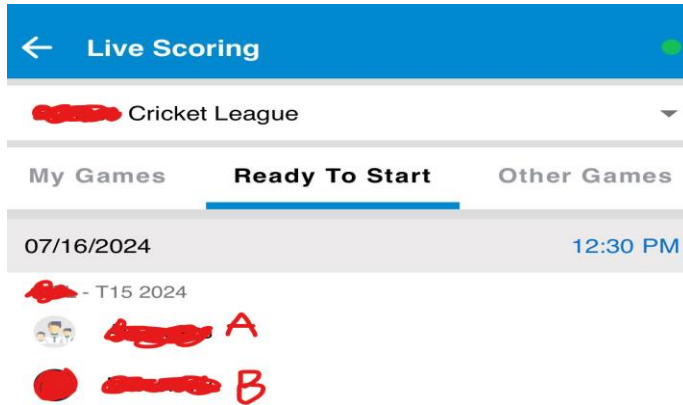

1. Log in with the user who is having team admin or team scorer access for that specific league and select the highlighted menu on the top left as shown below.

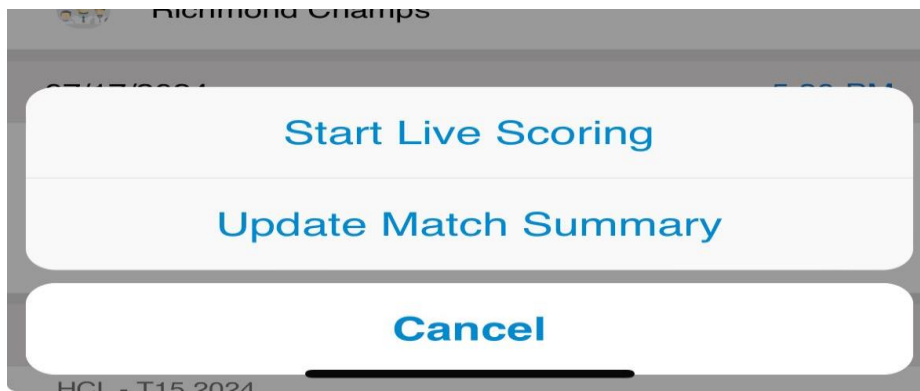

2. Select "**Live Scoring**" as shown in the screenshot below.

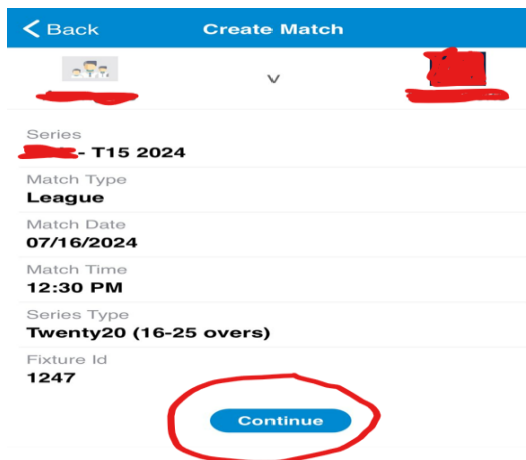

3. Select the specific league from the top dropdown and click on the **"Ready to Start"** button. Below, you will see upcoming games where you will need to click on the respective game.

4. Once you click on the respective game, a pop-up will appear. In this pop-up, select **"Start Live Scoring"**.

5. Please click on the **"Continue"** button shown in the image below.

6. After clicking the **"Continue"** button in Step 5, you will see the page below. On this page, select the playing 11 for the game. As you select players, the bottom of the page will display the number of players you have selected so far.

The screenshot shows the 'Create Match' interface. At the top, there is a blue header with a back arrow and the text 'Create Match'. Below this, the match title is 'T15 2024'. The teams are labeled 'A' and 'B'. Team A has a red scribble over its name, and Team B has a red scribble over its name. Below the team names, there is a list of players for Team A. Each player has a radio button, a name (redacted with a red scribble), and a dropdown menu showing the number of players selected. The numbers are 1, 11, 5, and 10. At the bottom, there are two boxes for '0 Selected' for Team A and Team B. A red circle highlights the 'Add New Player' button.

7. Similar to Step 6, Team B also needs to select their players in the same way.
8. Only players who have been added to their squad will be visible here.
9. If any new player is playing for your team, please add them to the squad before the start of the game so that they will appear in the list.
10. If you want to add a new player to the playing 11 who is not in the squad, please click on the **"Add New Player"** button (this is just temporary). *Once the match is completed, that player needs to create a CricClubs profile, and the team captain needs to update the scorecard.*

This is a close-up screenshot of the 'Add New Player' button, which is a white button with a blue border and the text 'Add New Player' in blue. The button is circled in red.

11. Once you click the **"Add New Player"** button, you will see the popup below. Here, please enter the player's First Name and Last Name. **Avoid using terms like "additional player," "extra player," "new player" or any other specific names.**

Add New Player		Add New Player	
*FirstName		Virat	
*LastName		Kohli	
Jersey Number (Optional)		Jersey Number (Optional)	
Email (Optional)		Email (Optional)	
Phone Number (Optional)		Phone Number (Optional)	
Cancel	Save	Cancel	Save

12. Once completed, please click on the **"Save"** button to add the player to your playing 11 for that match.
13. In a scenario where a team does not have a complete playing 11 for a specific game (for example, Team A having only 9 players), **Team A cannot select a different player from their squad who is not playing.**
14. To address this issue while selecting the playing 11, click the **"Add New Player"** button and enter names like "dummy player," "dummy2 player," etc., in the FirstName and LastName fields. **These dummy players will not bat, bowl, or field during the game.**

Add New Player	
*FirstName	Dummy
*LastName	Player
Jersey Number (Optional)	
Email (Optional)	
Phone Number (Optional)	
Cancel	Save

15. Once you have selected 11 players from both teams, click on the "Create Match" button.

The screenshot shows a form for creating a match. At the top, there is a section titled "Search Umpire By" with three radio button options: "Umpire" (which is selected), "Player", and "Team". Below this are two input fields labeled "Umpire 1" and "Umpire 2". Further down, there is a dropdown menu labeled "How many overs per innings?" with the value "15" selected. At the bottom of the form is a blue button labeled "Create Match". Below the form, there are two redacted team names, each with "11 Selected" written below it.

16. After clicking the "Create Match" button, you will be redirected to the screen below.

The screenshot shows a "Live Scoring" screen. At the top, there is a blue header with a back arrow and the text "Live Scoring". Below the header, there is a dropdown menu showing "Cricket League". Underneath, there are three tabs: "My Games", "Ready To Start" (which is selected), and "Other Games". Below the tabs, there is a date and time display: "07/16/2024" and "12:30 PM". Below that, there is a redacted team name followed by "- T15 2024". At the bottom, there are two team icons with redacted names and the letters "A" and "B" next to them.

17. Click on the game again, and then you will see the popup below. Click on "Continue Scoring".

The screenshot shows a popup menu with several options. The options are: "Continue Scoring", "Change Scorer", "Update Match Summary", "Scorecard", "Overlay Controls", and "Cancel".

18. After clicking "Continue Scoring", you will see the screen below where you need to select "Toss Won By" and "Toss Result".
