7. Each player must submit a signed waiver of liability form.
8. Misconduct/Running onto the field:
 - a. No parents or coaches are allowed on the field of play during the game or as part of the celebrations when the game ends. However, in the case of an emergency, parents or coaches may enter the field of play.
 - b. For any parents, coaches or players found to be in violation of deliberate misconduct/heckling by either umpire:
 - i. On the first offense, the umpire shall issue a first and final warning.
 - ii. Should there be any further instance the umpire shall award a 5 runs penalty to the side being offended.

(Note: Law #42. Penalty runs are never deducted, it is always added. A team can have penalty runs added to their score while fielding)
9. Umpires: To the extent possible, there shall be neutral (and trained) umpires for all games, particularly for 12U, 14U and 17U.
 - a. When there is only one (1) neutral umpire (bowler's end umpire), the batting team shall provide the striker's end umpire.

11. A team may not start the game with less than eight (8) nominated players. **The only exception is for the Girls, where the minimum is six (6).**
12. A team that is late or unable to start at the scheduled start time will lose one (1) over for every five (5) minutes or part of, that they are late, not to exceed thirty (30) minutes.
13. A team that is not ready to start a game within thirty (30) minutes will automatically forfeit the game.
14. All male fielders shall wear a cup/box/abdominal guard whenever play is in progress. All females shall be exempted from such requirement.
15. Wicket keepers shall wear protective helmet, box/cup/abdominal guard and wicket-keeping gloves.
16. Fast short-pitched ball: A fast short-pitched delivery is a ball, which passes or would have passed above shoulder height of the striker standing upright at the popping crease
 - a. A bowler shall be limited to one (two for 11U/Girls) fast short-pitched delivery per over.
 - b. A ball that passes above head height of the batsman, standing upright at the popping crease, that prevents him from being able to hit it with his bat by means of a normal cricket stroke shall be called a "wide".
 - i. For the avoidance of doubt, any fast short-pitched delivery that is called a wide shall also count as one of the allowable short pitched deliveries of that over.
 - c. In the event of a bowler bowling more than one (two for 11U/Girls) fast short-pitched delivery in an over the umpire shall call and signal "no ball" and then tap his head with the other hand.
 - i. If in the first instance a bowler delivers a second (third for 11U/Girls) fast short-pitched ball in an over the umpire shall call and signal "no ball" and when the ball is dead, shall caution the bowler and inform the captain of the fielding side.
 - ii. If there is a second instance of the same bowler being no balled in the innings for bowling more than one (two for 11U/Girls) fast short-pitched delivery in an over, the umpire shall advise the bowler that this is his final warning.
 - iii. Should there be any further instance (third time) by the same bowler in that innings, the umpire shall call and signal "no ball" and when the ball is dead direct the captain to take the bowler off forthwith. If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.

17. No ball:
- a. The umpire at the bowler's end shall call and signal "No ball" if a ball which he considers having been delivered, without having previously touched the bat or person of the striker, either,
 - i. bounces more than once (more than twice for 11U/Girls) or,
 - ii. rolls along the ground before it reaches the striker's popping crease.
 - b. If a ball delivered by the bowler comes to rest in front of the line of the striker's wicket, without having previously touched the bat or person of the striker, the umpire shall call and signal "no ball" and immediately call and signal dead ball.
 - c. Any non-pitching delivery, which passes or would have passed above waist height of the striker standing upright at the popping crease is 'unfair' and shall be called a "No ball".
 - i. Dangerous delivery: Any non-pitching delivery as described at 17.c above is also 'dangerous' if the bowler's end umpire considers that there is a risk of injury to the striker. In making that judgement the umpire shall:
 - disregard any protective equipment worn by the striker, and by mindful of:
 - the speed, height and direction of the delivery
 - the skill of the striker
 - the repeated nature of such deliveries.
 - ii. If any non-pitching delivery, or a series on non-pitching deliveries is considered to be 'dangerous' by the umpire, then when the ball is dead, the umpire shall repeat the No ball signal to the scorers and then caution the bowler, indicating that this is a first and final warning. The umpire shall also inform the other umpire, the captain of the fielding side and the batsmen of what has occurred.
 - iii. Should the same bowler repeat this "dangerous" delivery during the same inning, the umpire shall ask the captain to remove the bowler forthwith and he/she shall not be able to bowl again in that inning. If applicable, the over shall be completed by another bowler, who shall neither have bowled any part of the previous over, nor be allowed to bowl any part of the next over.
 - iv. The only exception to c.iii. above is for 11U and the Girls League, where upon the second occurrence of a non-pitching 'dangerous' delivery during the same over, the bowler shall not be allowed to bowl again in that over. The bowler may however return to bowl other overs.
 - d. Either batsman may be out "run out" or "obstructing the field" from a "No ball".
 - e. A penalty of one (1) run shall be awarded instantly on the call of "No ball". This penalty shall stand even if a batsman is dismissed. It shall be in addition to any other runs scored, any boundary allowance, and any other penalties awarded.
 - f. If in the opinion of either umpire, the ball has been thrown, he shall call and signal "No ball", and caution the bowler. This caution shall apply throughout the innings.
 - i. If either umpire considers that after such caution a further delivery by the same bowler in that innings is thrown, the umpire shall call and signal "No ball" and issue a first and final warning.
 - ii. If either umpire considers that a further delivery by the same bowler in that innings is thrown, he shall call "No ball" and direct the captain to take the bowler off forthwith. The over shall be completed by another bowler, who shall neither have bowled the previous over or part of nor is allowed to bowl the next over or part of.
 - g. All "No balls" shall be called by the bowler's end umpire. Except for

20. The movement of the striker shall not be taken into account when a "wide ball" is called.

 - b. Whenever, the normal set of wickets are **not** being used, and stumps/wickets of other types (e.g. "spring" type set of stumps or those with a base of some sort are being used, any part of the base or construction shall be considered as part of the wicket. When normal wickets are not used, and the entire set of stumps fall onto the ground, they **must** be replaced back to an upright standing position in order to have an opportunity of legally putting the wicket down again. If plastic stumps are used, and 1 or 2 of the stumps fall on the ground, any of the remaining stumps can be hit to legally put the wicket down again.
22. Tie score: If the scores in the main match are equal, the initial result shall be a "Tie" and no account shall be taken of the number of wickets which have fallen. A Super Over will then be played.

 - h. Each team's over is played with the same fielding restrictions as applied for the last over in a normal T20 match.
 - i. The captains shall select the ball from a box of used balls from the main match provided by the umpire, but no new balls.
24. Whenever there is a situation that is not covered, or is not clearly defined, then the ICC T20 playing conditions (effective 9/30/18) shall apply, and if still not settled, then the MCC Laws (effective 4/1/19) shall apply (See Appendix 3). In cases where sections of the ICC T20 playing conditions are inconsistent with the recent changes to the MCC Laws, then the MCC Laws shall prevail.
25. Appeals/Complaints
 - a. Teams are allowed to lodge appeals or file complaints in writing to the Rules & Umpires Committee (email contact is in the appendix) within **24** hours after the end of their game. The committee will respond in 72 hours.
 - b. Umpire errors in judgment and misapplication of the Law are considered "normal" umpiring mistakes, and therefore the umpire's call is final and will not be overturned. However, such scenarios will be used as teaching moments for future games.

Scenario 1:

Team A scored 40 - 3 after their first 8 overs. Team B then scores 39 – 2 off 5.2 overs when it rains.

Team B's par score should have been **26** i.e. $[(100 - 35.2^*)/100 \times 40]$, so Team B wins by 13 runs.

**The 35.2 came from the table (on page 14), where the column for 2 (wickets lost) intersects with the row for 2.4 (overs remaining to get to 8)*

Scenario 2:

Team A scored 40 - 3 after their first 8 overs. Team B then scores 30 – 3 off 7.1 overs when it rains.

Team B's par score should have been **36** i.e. $[(100 - 11.4^*)/100 \times 40]$, so Team B loses by 6 runs.

**The 11.4 came from the table (on page 14), where the column for 3 (wickets lost) intersects with the row for 0.5 (overs remaining to get to 8)*

Scenario 1:

Team A scored 80 - 4 off their 16 overs. Team B then scores 69 – 7 off 10.5 overs when it rains.

Team B's par score should have been **59** i.e. $[(100 - 26.7^*)/100 \times 80]$, so Team B wins by 10 runs.

**The 26.7 came from the table (on page 17), where the column for 7 (wickets lost) intersects with the row for 5.1 (overs remaining to get to 16)*

Scenario 2:

Team A scored 80 - 4 off their 16 overs. Team B then scores 62 – 8 off 12.4 overs when it rains.

Team B's par score should have been **68** i.e. $[(100 - 16.2^*)/100 \times 80]$, so Team B loses by 6 runs.

**The 16.2 came from the table (on page 17), where the column for 8 (wickets lost) intersects with the row for 3.2 (overs remaining to get to 16)*

Appendix 6 - Duckworth-Lewis (Standard Edition) Sheet for 20 Overs.

For 12U/14U/17U when rain ends the game in 2nd inning (after 5 overs have been bowled).

Scenario 1:

Team A scored 80 - 4 off their 20 overs. Team B then scores 70 – 2 off 11.3 overs when it rains.

Team B's par score should have been **42** i.e. $[(100 - 47.5^*)/100 \times 80]$, so Team B wins by 28 runs.

**The 47.5 came from the table (on page 20), where the column for 2 (wickets lost) intersects with the row for 8.3 (overs remaining to get to 20)*

Scenario 2:

Team A scored 80 - 4 off their 20 overs. Team B then scores 70 – 9 off 11.5 overs when it rains.

Team B's par score should have been **74** i.e. $[(100 - 8.3^*)/100 \times 80]$, so Team B loses by 4 runs.

**The 8.3 came from the table (on page 20), where the column for 9 (wickets lost) intersects with the row for 8.1 (overs remaining to get to 20)*
