

Disputes and Resolutions Committee

A committee of five members will be formed to provide a channel for teams to raise any concerns/disputes arising during the season and get a resolution to their issues.

This will be a committee of peers that will receive complaints from any member clubs and provide a resolution within 7 days of filing of a complaint.

Member teams or umpires can bring any concerns within 48 hrs of the game in writing by the club representative to the committee through its email address,

mrcl.cricket.disputes@gmail.com)

with any documentation/evidence to support their case.

The committee will acknowledge the receipt and inform of subsequent steps that may or may not involve meeting the member team regarding the issue.

In case of a dispute/issue wherein a committee member is a party, that member will recuse himself from the committee and a replacement member will be assigned until that committee has finalized its decision on the matter.

Once the committee has reached its decision it will inform the parties involved and decision shall be binding on all parties concerned

A member can file a complaint/grievance with the disputes and resolutions committee against any member team upon which the committee will review the complaint and call a member's meeting to present its findings and recommend any further action, which will be decided by the members.

The disputes and resolutions committee will be elected each calendar year and will provide a general report to the AGM (General meeting of the members) on the matters adjudicated through the committee and any recommendations for the league to improve upon various aspects that provide a better experience for the members.

Members can also raise concerns about official umpires and their conduct including the quality of Umpiring during the proceedings of a game to the committee.

The committee will review the complaints and conduct their inquiry on all such matters and inform the complainants of their decision.
