

NOVA SCOTIA | THE OFFICIAL
CRICKET ASSOCIATION HOME OF THE

To,
Players/Members/Teams
Nova Scotia Cricket Association

Dated: April 20, 2021

Sub: Summer Cricket league of 2021 and COVID-19

Dear Players,

This notice is addressed to everybody who is a member and associated with Nova Scotia Cricket Association (NSCA). As you may already know, NSCA has decided to resume the 2021 summer league from the weekend of May 29-30. However, before starting the league, we need players to be aware and appreciate both general government guidelines and return to play protocols as drafted by the association. The "Return to Play Protocol" ("Protocol") for 2021 is attached to this letter and a copy of the general government COVID-19 guidelines ("Guidelines").

The NSCA also wants its players/members to know that anyone found violating the said Protocols and Guidelines would not be allowed to participate and play in the league. Further, the player/member in violation of both Protocols and Guidelines will be solely responsible for his injuries and virus infection.

The players/members who receive this letter along with Protocols and Guidelines agree to participate/ play in the summer league 2021 deems to waive his right to hold NSCA responsible for his injury and COVID-19 infection. Neither NSCA nor its chair, along with the executive committee are liable for any such injury and COVID-19 infection caused during any of the matches of the summer league.

Below, NSCA highlights some of the Protocols and Guidelines. Please note that the following list is not exhaustive, and the Protocols and Guidelines need to have complied comprehensively.

1. Maintain social distancing as much as it is possible to do so.

-
2. Every player must have a sanitizer and regularly sanitization of hands, playing equipment and the ball.
 3. No saliva on the ball.
 4. Limit physical contact with other players.
 5. No sharing of jerseys and other playing equipment.
 6. No unwanted meetings (hangouts) before or after the game.
 7. Keep committee and association informed about any contact with COVID-19 patient or somebody who has the symptoms (fever, cough, respiratory issues, etc.).
 8. Keep committee and association informed if the player/member develops any symptoms of COVID-19.

We continue to observe the situation very closely, and no decision is/will be taken lightly. We strongly believe that with cooperation between the players/members and the executive committee of the NSCA, we will successfully commence and complete this playing season.

We appreciate your support and cooperation.

Yours very truly,

Amit Joshi
President
Nova Scotia Cricket Association
