League Management

How to start a league?

The league can be register through Website and through mobile App.

1. Go to www.cricclubs.com and in the top right corner click on Register Button and fill the required information.
2. Open the CricClubs App and in the overview, you can see the Register league option, go through that and fill the required information.

How to add or upload teams / players?

Players are required to register for their respective Cricket League on <https://www.cricketcalgary.ca>. Register option is available on the right side in the menu bar. On selecting the register option Player is directed to the registration form to fill player details. Player submits a registration request by clicking the submit button. Please note anyone can register a player on his behalf as long as they have required player information for registration.

Who has access to update the league data?

Only Admin has access to league data but he can give access to Scorers, Organizers, Umpires.

What are the different Admin roles to access the league?

League Admin, Team Admin, Team Scorer, League Scorer, Series Admin, Scheduler.

How to add schedule/ fixtures?

Admins can create fixtures for one match or upload schedule to create multiple fixtures by providing required Fixture related information in terms of teams involved, date/time, ground location etc. Admins can create Teams individually or upload teams to create multiple teams by providing required Team related information in terms of team Name, Players on roster and Captain/VC etc.

How can I add player profiles?

When Admin navigates to Players -> Approve players, there are 3 tabs namely New, Active and Inactive. New Players are waiting for admin's approval, Active players are already approved by admin players and Inactive players are those registered players who are no more actively playing.

Where can I edit the player details?

Admin - or Scorer Can click on the player profile & can edit all the fields

How can I change Max overs of match in between the match?

While scoring go to Actions Tab below, Click Action Tab - You Can View a change Max overs of match option.

Where Can I set the Total Team target manually?

While scoring go to Actions Tab below, Click Action Tab - You Can View set the Total Team target manually option.

Where/How can i add the commentary manually?

While scoring go to Comment Tab below, Click Comment Tab - Where You Can Add the Comments Manually.

How to manage team (Add / Remove / Update Players to roster)

Team admins (Captain/Vice-captain) will be given privileges to add/remove/update players to their roster. To access information, top menu bar

Team > View Teams > Click on your team name.

Note: Teams will be locked from adding new information/players to roster Friday – Monday

Team Admin can do following:

- Add players
- Update Team
- Add/Update team logo
- Update individual player information (including email and password)

Add Players

To add players from home page **Teams > View Teams > Click on your team name > Add players button > Add First Name, Last name and email.**

Update Team

This option gives lot of different options to add information regarding the team.

- Team name
- Team code
- Add and remove players from Registered players (if any), Right side list is your roster. As long as your playing 11 are from this roster, they will be allowed to play.
- Removing from right side list, will remove them from roster.
- Select / update captain and vice-captain from roster

Update team logo

On team page, **Teams > View Teams > Click on team name > Upload logo** (next to update <Update team> is where you can add your team logo).

Update individual players information

To update a single player information from home page **Teams > View Teams > Click on team name > click on players "view profile" > "Update Profile"** right under their name.

Make sure picture of each player is uploaded for your team.

Live Scoring App

How to start live scoring?

- > Go to live scoring section in the app
- > Tap On Ready start
- > Select your scheduled game
- > Tap On Start Live Scoring
- > Select the squad of both the teams
- > Select the no of overs
- > Go To My Games & Start Scoring

Who has access to live scoring?

League Admin, Team Scorer, League Scorer

How to Update/Upload the scorecard?

If you are not able to score live then you can update/upload the scorecard manually by following steps.

Login as Admin/Captain/Vice Captain > Matches > Result/Schedule > Go to particular matches > Admin action > Full Scorecard > Validate And submit.

Can I edit completed balls?

Yes, you can find the edit option while live scoring the match and you can edit any particular ball of the match.

Can I add players while scoring?

Yes, you can add players by tapping on the action tab, you can find add players option.
