

Step 1:

From about the middle of the pitch, measure **165 feet (55 yards)** and use the vertical cones to mark the outfield in a circular form.

Step 2:

From the middle stump of the batting end, measure **75 feet (25 yards)** and complete a semi-circle using the flat cones between Point & Short Square Leg.

Step 3:

From the middle stump of the bowler's end, measure **75 feet (25 yards)** and complete a semi-circle using the flat cones between Extra Cover & Midwicket.

Step 4:

Complete a straight line using the flat cones between Point & Extra Cover AND between Short Square Leg & Midwicket.

Step 5:

Arrange the stumps & bails at both the batting & bowling ends.
